LIKENESS

AI MODEL STUDIO

CONCIERGE OFFER

FOUNDING CLIENTS

A consistent AI model for your roster. Built, stocked, and run for you.

AI model faces drift after a few shoots - and the $10-30/mo tools leave your team doing all the production work. Likeness is the opposite: a studio with staff. **You direct; we build and operate. No GPUs to buy, no prompts to write, no drift to fix.**

HOW IT WORKS

1

Direction call

Describe the model: look, niche, vibe. We lock the brief and your production window.

2

Studio build

We train the identity and verify it against drift before a single image ships.

3

Launch review

You review the lookbook; we revise. Two rounds included.

4

Weekly production

Fresh batches, stocked reserve, captions, and publish tracking - handled.

Founding clients: 5 slots for the October cohort.

During our concierge phase, every studio is operated personally by our team - the same pipeline behind our own consistent model. Founding clients lock these terms and get first access to the managed studio platform when it launches.
